- Food and Agribusiness
- Consumer Products and Retail
- Manufacturing
- Gaming
- Advertising and Social Media
- Energy

Collaborative Approach

Our core IP and Technology Transactions group works hand-in-hand with in-house legal, business and technology teams to develop a negotiation plan that is tailored to the specific deal and the client's business goals. Depending on the project, we may collaborate with Faegre Drinker M&A deal attorneys, and we regularly call on our colleagues with deep knowledge in areas such as FDA, cybersecurity, patents and tax.
