

Patent Protection & Strategy

Our team comprises
50+ patent practitioners,
including Ph.D. scientists and
engineers with a wide range
of technical backgrounds:

- Aerospace and Aeronautical Engineering
- Applied Optics
- Applied Physics
- Biochemistry
- Biology
- Biomedical Engineering
- Biophysics
- Chemical Engineering
- Chemistry
- Computer Engineering
- Computer Science
- Electrical Engineering
- Materials Science
- Mechanical Engineering
- Organic Chemistry
- Pharmaceuticals and Immunology
- Physics
- Plant Science
- Software & AI
- Systems Engineering

We have extensive experience intersecting with various legal services, including:

Technology Licensing
& Transactions

Venture Capital

Startup Formation
& Support

FDA Regulatory
Compliance & Support

Technology Protection Strategists

Our priority is understanding each client's markets, products, core technologies and business needs. With a collaborative approach, we empower clients to make effective business decisions.
